

# **Final Year Project Report**

## **Online E-commerce and Classified Website (Mini Pet World)**

### **Project Advisor:**

Ayesha Asmat

### **Project Co-Advisor:**

Hira Asim

### **Submitted By:**

Muhammad Ali - F2017266016

Ammar Ghafoor - F2017266064

Hamid Ali Tung - F2017266104

### **Session**

2017-2021

**University of Management and Technology**

**C-II Johar Town Lahore Pakistan**

## **Dedication**

Our work is dedicated to our faculty members, our parents who support us in various ways, who always help us to learn more and more and gave us valuable feedback. We also dedicate our work to our University which gave us the opportunity to enhance our knowledge.

## Final Approval

- **Head of Department**

Department of Software Engineering  
School of Systems and Technology  
UMT Lahore

---

- **Director Final Year Projects**

School of Systems and Technology  
UMT Lahore

---

- **Supervisor**

School of Systems and Technology

---

- **Co-Supervisor (if any)**

---

## **Acknowledgment**

We would like to appreciate and express our gratitude to all the people who were the key support for us and make it possible for us to complete this project. We are thankful to our Final Year Project advisor, Mam Ayesha Asmat and Mam Hira Asim, who help, motivate, manage and support us to complete our project and our final report writing. We would also like to thank all the teammates who deserves to be appreciated as their hard work make this project possible to be completed

**Project Title**

Mini Pet World

**Objective**

Our objective is to facilitate every Pet lover, pet keeper and breeder with new emerging technology of ecommerce to shift online and avoid visiting market places during this pandemic.

**Undertaken by**

We claim that we have this project by our own previous knowledge and new knowledge. All the documents and all the work done is original.

**Supervised by**

Mam Ayesha Asmat

Mam Hira Asim

**Starting Date**

October, 2020

**Completion Date**

August, 2021

**Tools Used**

- PHP
- Laravel MVC Framework
- JavaScript
- Bootstrap
- Html
- CSS
- My Sql
- VS Code
- Git Hub

**Operating System**

Windows 10 Pro

### **Supervisor's Approval**

I have carefully examined the documentation of the Final Year Project titled "*Mini Pet World*"; and I endorse that this documentation complies with the standards of an undergraduate level Final Year Project report.

Moreover, I have also checked for the plagiarism beyond Turnitin in the documentation and I am convinced that this documentation is not plagiarized.

## **Abstract**

When you have a pet in your family it automatically becomes a member of your family. But finding a perfect item and service for your pets is also a big problem. Moreover, when it comes to buy or sell your animals it becomes a difficult task. Keeping some of these major problems in mind we have developed a full fledged Online Web based Pet Store. Where customer can find a perfect service for his pet. Mini Pet World is a web based application where pet owners can find each and everything related to pet under single roof. We have developed some unique services like pet relocation (To relocate customer's pet), pet engagement for the purpose of breeding. Pet care service is also included it is just like babysitting, to take care of customer's pet. Most of these services are unique and not yet available in Pakistan. The main objective of Mini Pet World is to eliminate the problems encountered in the current manual operation of the business. The hassle of sell/purchase will be reduced. Pet supplies and food will be delivered at customer's doorstep. Customer can also find affiliated vets nearby.

## REVISION CHART

Task	Group Available in Meeting	Description of version	Date
<i>Elicitation</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	Advice to start elicitation Read related research papers To study related apps Advised to study risks, benefits, difficulties for our project.	Nov 24,2020
<i>Proposal</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	Advised to update proposal, add new features, to decide a platform that will be used for implementation tools and technologies	Nov 30,2020
<i>Use cases(Revision 1)</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	Use cases designed After meeting advised to correct pointed errors in use cases. To add common and specialized functionality.	Dec 25,2021
<i>use cases(Revision 2)</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	use cases are redesigned After meeting advised to find new use cases and also advised to make high fidelity prototype of Mini pet world website	Jan 12,2021
<i>Front end</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	Front end screens designed	Jan 22,2021
<i>Sequence diagrams</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	After meeting advised to make class diagrams Also discussed different tools to make diagrams	Jan 26,2021
DFD	Muhammad Ali, Ammar Ghafoor, Hamid Ali	Dfd 0 and 1 designed.	Feb 01,2021
<i>Revision 1</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	Revised use extended use cases	Feb 08,2021

<i>Revision 2</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	Revised ERD diagram	Feb 16,2021
<i>Revision 3</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	Revised system architecture diagram	Feb 21,2021
<i>Revision 4</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	Revised test cases	May 25,2021
<i>Revision 5</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	Revised RID vs UCID Revised RID vs TCID Revised UCID vs TID	May 29,2021
<i>Revision 6</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	Advised to change some interface in the site	June 15,2021
<i>Final Release</i>	Muhammad Ali, Ammar Ghafoor, Hamid Ali	Final Application Test	Aug 04,2021

# 1. INTRODUCTION

---

## 1.1 Motivations

Mainly purpose of our project is to provide Pakistani pet owner's with every facility related to pets. The motivation behind this project is we analyzed that mostly pet owner's in Pakistan is facing the problem of pet caring, pet relocating and pet engagement. These are the common difficulties that every pet owner facing so, we will offer the solution of these difficulties in one platform.

## 1.2 Project Overview

As in this era almost every family have a pet in. But finding a perfect item and service for your pet is also a big problem. Moreover, when it comes to buy or sell your animals it becomes a difficult task. Indeed, there is a huge target market out there. We are supposed to launch some unique service which is not yet available in Pakistan. Keeping some of these major problems in mind we are intend to develop a full fledged Online Pet Store. Where you can find a perfect service for your pet. This online system majorly accomplishes the needs of that costumers who didn't have time to time to go to market for their pet food and accessories and for their selling and purchasing. In our system major functions include manage payments and delivery, User friendly, Related items, Detailed shipping information, Return Policy, Find in store etc.

## 1.3 Problem Statement

One of the major reason is to eliminate problems encountered in the current manual operation of the business. Pet lovers have to visit local markets to sell and purchase their pets and usually vendors do not treat them according to their expectation. Moreover, when someone have to go somewhere for short time, taking care of pet is one of the big problem. Another one of the most common problem in Pakistan is that it is very difficult to find the mating partner for the pet. It is very difficult to find veterinary medical store. Finding a perfect food item or accessories for your pet is also a big problem especially in this COVID-19 situation when everyone wants to sit and work from home.

## 1.4 Objectives

The main objective of Online Pet Shop is to design and develop an online application to counter and eliminate above mentioned problems. The hassle of sell/purchase will be reduced. Pet supplies and food could be deliver at customer's doorstep. Customer can find vet address and contact number easily. Ad posting for sell/purchase will be from all over the Pakistan. Ads for mating/stud purpose could also be posted.

## 2. DOMAIN ANALYSIS

---

### 2.1 Customer

Our customers will be all pet lover from all over the Pakistan. In our platform we will serve those peoples particularly who want to go anywhere and we will care their pets, also relocate pets from one place to another place and also we will find the mating partner for their pets.

### 2.2 Stakeholders

**Table 2: Stakeholders**

Stakeholder	Role in System
Seller	Sellers are our main stakeholders Because sellers will upload their ads for selling their pets. They also can upload adds for pet engagement to find the best mating partner for their pet.
Buyers	Buyers are also one of our prime users they can buy pet in their selected range of price. They can also buy pet food and pet accessories using this platform. Furthermore, they can get information about vets in the town.
Admin	Admin is also our main stakeholder. Admin will manage all the platform functionalities like selling, buying etc. Admin will also have look on stock of pet food and pet accessories.

### 2.3 Affected Groups with social or economic impact

#### **Buyer:**

The buyer should be able to buy any kind/breed of pet without even going to the pet store and also will be able to buy pet products like pet food etc. It will save their time.

#### **Seller:**

The seller of the pet store will be able to increase their business by selling online as well as physically. And the people who want to sell their pet will be able to sell online.

### 2.4 Dependencies/ External Systems

Dependencies/External Systems

- Server
- Database
- Devices
- Internet

## 2.5 Reference Documents

### 2.5.1 Related Projects

- **Chewy.com**

An UK based web application that too provides the pet food, accessories and veterinary medicine. We have looked into this site to get inspiration to build our project.

- **Petsshop.pk**

It is a local website that provide pets sell/purchase service. We looked its features and functionalities to develop some unique product.

- **Petsmart.com**

It is Canada based website that too provides some of the feature like pet care and food and accessories of pets online.

### 2.5.2 Feature Comparison

**Table 3: Feature Comparison**

Sr No.	Comparison Feature	Chewy	Petsshop.pk	Petsmart.com	Mini Pet World
1	Pet Sell/Purchase	This website does not provide this feature	They only provide this feature to post the ad for selling and purchasing purpose	This website does not provide this feature.	User can post ad from all over the Pakistan and search the pet according to desired location.
2	Food Accessories and pharmacy	They provide this feature to buy food, accessories and veterinary medicine as well.	This website does not provide this feature.	They only provide feature to buy food and accessories.	We provide all of these feature and we are also going to mention address and contact information of vet clinics.
3	Finding mating partner for pet.	This website does not provide this feature.	This website does not provide this feature.	This website does not provide this feature.	We are going to provide this unique facility to find the mating partner and pet relocation service
4	Pet Relocation and care	This website does not provide this feature.	This website does not provide this feature.	This website does not provide this feature.	We will use this feature to relocate the pets.

### 3. REQUIREMENTS ANALYSIS

---

#### 3.1 Requirements

The requirements are based on the performance and functionalities the system must uphold in order to achieve the objectives.

Table 4 contains a list of categories to which the requirements belong. The requirement type given in the table categorizes the requirements. So that it is easier for the user to identify the requirement by the unique id given to each requirement.

**Table 4: Requirement Categories**

RID	Requirement Type	Description
FR 1.x	Functional Requirements	Requirements, which are the core requirement of the business operations.
NFR 2.x	Non-Functional Requirements	The supporting Requirements for Functional Requirements. These include the measure able quality attribute.
PR 3.x	Programming Requirements	This section will define which tools are used to develop this website.
DR 4.x	Data Requirements	This section how the user will store the data.

Table 5 contains a long list of requirements that were gathered and discovered for this project. First column contains a unique requirement id that is assigned to each requirement. Description column contains a small description of requirement. The type of requirement is displayed in front of each requirement along with their attribute. For elaboration purposes, description for each requirement is presented in the last column.

**Table 5: List of Requirements**

RID	Description	Category	Attribute	Details & Boundary Constraints
FR1.1	The user shall login into the system.	Functional Requirements	Login interface	<ul style="list-style-type: none"><li>• Enter Login id.</li><li>• Enter login password.</li><li>• Reset forgotten password.</li></ul>
FR1.2	User shall Sign Up into system.	Functional Requirements	Sign Up Interface	<ul style="list-style-type: none"><li>• Full Name.</li><li>• Email.</li><li>• Phone.</li><li>• Password.</li><li>• Confirm Password.</li></ul>
FR1.3	User shall be able to visit different menus. User	Functional Requirements	Main menu for production site	<ul style="list-style-type: none"><li>• Home.</li><li>• Pet Store.</li><li>• Vet Clinics.</li></ul>

	could navigate whole website from home page, food, accessories will be available in pet store, Clinics address and contacts will be available in vet clinics, then ads will be available in buy/sell option.			<ul style="list-style-type: none"> <li>• Buy/Sell.</li> <li>• Contact.</li> <li>• How it Works.</li> </ul>
FR1.4	User Shall be able to find desired pet via filters according to different attribute	Functional Requirements	Filters.	<p>User could search pets according to:</p> <ul style="list-style-type: none"> <li>• Breed</li> <li>• Name</li> <li>• Age</li> <li>• Category</li> <li>• Location</li> <li>• Price</li> </ul>
FR1.5	The User shall be able to see recommendations of products and website details.	Functional Requirements	Home page.	Initially random products will be shown at home page but after sometime when user search something recommendation will be shown on user-based search history
FR1.6	User Shall be able to find desired product according to different categories of food and accessories.	Functional Requirements	Food and accessories	User could search product using product name or keywords.
FR1.7	User shall be able to find contact number, address and location of affiliated vet.	Functional Requirements	Vet Clinics	<ul style="list-style-type: none"> <li>• Name.</li> <li>• City.</li> </ul>
FR1.8	User shall be able to post ads of his pets according to different pet categories.	Functional Requirements	Pet Sell and purchase	<ul style="list-style-type: none"> <li>• Pet for.</li> <li>• Color.</li> <li>• Group.</li> <li>• Price.</li> <li>• Pet Type.</li> <li>• Gender.</li> </ul>

				<ul style="list-style-type: none"> <li>• Age.</li> </ul>
FR1.9	User shall be able to post ads of his pets for mating/stud purpose.	Functional Requirements	Pet Sell and purchase	Ads category <ul style="list-style-type: none"> <li>• Sale/Purchase</li> <li>• Mating</li> </ul>
FR1.10	User shall be able to search Food and Accessories for different pets.	Functional Requirements	Search bar	<ul style="list-style-type: none"> <li>• Product Name.</li> <li>• Pet Category.</li> <li>• Keywords.</li> </ul>
FR1.11	User shall be able to search pet and mating partner.	Functional Requirements	Search bar	<ul style="list-style-type: none"> <li>• Keyword.</li> <li>• Pet Category.</li> <li>• Location.</li> <li>• Price.</li> </ul>
FR1.12	The user shall be able to add different products into cart.	Functional Requirements	Cart	<ul style="list-style-type: none"> <li>• Add Cart.</li> </ul>
FR1.13	User have to fill shipping information before check out.	Functional Requirements	Order placement	<ul style="list-style-type: none"> <li>• Name.</li> <li>• Email.</li> <li>• City.</li> <li>• Address.</li> <li>• Phone.</li> <li>• Country.</li> </ul>
FR1.14	User shall be able to fill a form for pet relocation and pet Care service.	Functional Requirements	Pet relocation and Pet care.	<ul style="list-style-type: none"> <li>• Pet Name.</li> <li>• Pet Owner Name.</li> <li>• Pet Owner Address.</li> <li>• City.</li> <li>• Contact Number.</li> </ul>
FR1.15	The user shall be able to view contact us page in case of any query or details.	Functional Requirements	Contact us.	<ul style="list-style-type: none"> <li>• Full Name.</li> <li>• Email.</li> <li>• Subject.</li> <li>• Message.</li> </ul>
FR1.16	The admin shall be able to approve ads before making it live.	Functional Requirements	Admin Panel	<ul style="list-style-type: none"> <li>• View assigned adds on Buy/Sell page.</li> </ul>

FR1.17	The admin shall be able to update product stock.	Functional Requirements	Admin Panel	<ul style="list-style-type: none"> <li>Update Stock.</li> </ul>
FR1.18	The admin shall be able to post new product.	Functional Requirements	Admin Panel	<ul style="list-style-type: none"> <li>Update Product.</li> <li>List new Product.</li> </ul>
FR1.19	The admin shall be able to post blogs and event.	Functional Requirements	Admin Panel	<ul style="list-style-type: none"> <li>Post blog</li> <li>Post new Event</li> </ul>
FR1.20	The admin shall be able to add and delete new categories.	Functional Requirements	Admin Panel	<ul style="list-style-type: none"> <li>Add Categories</li> <li>Delete Categories</li> </ul>
FR1.21	The admin shall be able to manage Users.	Functional Requirements	Admin Panel	<ul style="list-style-type: none"> <li>Delete Users from the system.</li> </ul>
NR2.1	Performance of the system.	Non-Functional Requirements	Interface	<ul style="list-style-type: none"> <li>This system should respond promptly.</li> <li></li> </ul>
NFR2.2	Usability of the system.	Non-Functional Requirements	Interface	<ul style="list-style-type: none"> <li>This system should easy to use and understand.</li> </ul>
NFR2.3	Accuracy of the system.	Non-Functional Requirements	Interface	This system will give accurate and precise results on searching.
NFR2.4	Adaptability of the system.	Non-Functional Requirements	Interface	<ul style="list-style-type: none"> <li>This system will easily available to operate and use.</li> <li></li> </ul>
NFR2.5	Correctness of the system.	Non-Functional Requirements	Interface	<ul style="list-style-type: none"> <li>This system will fulfil all the functional and non-functional requirements</li> </ul>
NFR2.6	Portability of the system.	Non-Functional Requirements	System compatibility	The system is expected to run from every browsing devices such laptop, mobile, tablets, desktop PC's etc.
PR3.1	Web development tools	Programming Requirements	Developing site	<ul style="list-style-type: none"> <li>PHP / Laravel</li> </ul>

				<ul style="list-style-type: none"> <li>• Vs code, Git Hub</li> <li>• Xamp / My Sql</li> </ul>
DR4.1	Data store in MySQL.	Data Requirements	Storage resource	<ul style="list-style-type: none"> <li>• MySQL Server will be used for this purpose.</li> </ul>

Total Cart Items	number	Here you can see the total item you have add in cart
Order ID	number	The Specific number or Id will assign to your order
Order Amount	number	Here you can see the total amount of your order

## 6. IMPLEMENTATION DETAILS

---

### 6.1 Development Setup

Programming Language: PHP, Laravel MVC Framework, HTML, CSS, JavaScript

Hardware: PC, Mobile Browser

Database: MySQL

Tools: Visual Studio, Sublime, Git hub, XAMPP Server

### 6.2 Deployment setup

We have not yet deployed our website.

### 6.3 Algorithm

We have not used any particular algorithm. We have used PHP and Laravel framework to implement all our functionalities.

### 6.4 Constraints

#### 6.4.1 Assumptions

- Systems with appropriate user interfaces will be available for users and admin perform their required task.
- Mini pet world staff will be available to deliver all orders to customer within 24 hours.
- User have knowledge how to use this system.

#### 6.4.2 Restrictions

- User cannot directly add posts without admin's permission
- User have to login Before buying Product
- User have no right to modify add or delete products and categories

#### 6.4.3 Limitations

- Only Admin can enter products
- Only Admin can approve or reject the Ads
- Customers cannot have access admin features

## 7. TESTING

---

### 7.1 Test Cases

**Table 20: User Registration**

Test Case ID: TID-01			Test Design By: Ammar Ghafoor			
Test Module Name: User Registration			Test Design Date: 28/07/2021			
Test Priority: High			Test Executed By: Muhammad Ali			
Test Title/Name: To test registration button			Test Executed Date: 29/07/2021			
Description: Check customer enrollment with substantial information						
Pre-Condition:  1. User must have valid email.						
Dependencies: Customer should have a substantial email id						
Step	Test Step	Test Data	Expected Result	Actual Result	Status (Pass/Fail )	Notes
1	Go to MinipetWorld website				Pass	
2	Open the registration page					
3	Fill the fields in the registration form					
3	Enter Full Name	Muhammad Ali				
4	Enter Email address	F2017266016@umt.edu.pk				

5	Password	Ali123			
6	Confirm Password	Ali123			
4	Click on Register Button		The client can make another record of the database	Customer successfully registered his account	
<b>Post-Condition:</b> User Must verify his email and password to enter into the system					

**Table 21: User Login**

Test Case ID: TID-02			Test Design By: Ammar Ghafoor			
Test Module Name: User Login			Test Design Date: 28/07/2021			
Test Priority: High			Test Executed By: Muhammad Ali			
Test Title/Name: To test login button			Test Executed Date: 29/07/2021			
Description: The login button will provide Login information						
Pre-Condition:  1. User must have valid email.						
Dependencies: None						
Step	Test Step	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Notes
1	Go to MinipetWorld website					
2	Open the login page					

3	Fill the fields in the registration form	<b>Email:</b> F2017266016@umt.edu.pk <b>Password:</b> Ali123			Pass	
4	Click on login Button		home page of the site will be shown	Customer logged in successfully		
<b>Post-Condition:</b> The user should be logged in this website's account to use its services						

**Table 22: Buy pet food**

UC 4				✓									
UC 5					✓								
UC 6						✓							
UC 7							✓						
UC 8								✓					
UC 9									✓				
UC 10										✓			
UC 11											✓		
UC 12												✓	
UC 12													✓

## 8. RESULTS/OUTPUT/STATISTICS

---

### 8.1 %completion

We have 13 use cases and 21 functional requirements in our project. 96% of use cases completes the requirements of project.

### 8.2 %accuracy

We have tested all the Test cases. Almost 93.2% of work is accurate.

### 8.3 %correctness

Based on search results and Placing order and managing admin panel. Our Application results are 95% Accurate.

## 9. CONCLUSION

---

Mini Pet World is a combination of ecommerce and classified website. Which helps nearly every pet lover and pet keeper around Pakistan. We tried our best to make a user friendly interface where a user can easily get register and avail our services. It provides the facility to buy pet food and accessories online sitting at home. Now user don't need to visit market places for the desired item. Even user can sell and purchase their pets. User now can easily find the breeding partner for their pets.

## 10. FUTURE WORK

---

In Future we want to add more additional features in this website to enhance it for the betterment of the pet lovers. We want to add some machine learning feature too when a person will upload the photo of pet and or system will tell him about the pet breed, special features and behavior.

We also have a plan to launch online clinic for pets so that customers can get the checkup of their pets sitting at home and can also order medicine from our website. In short we will try to serve in every aspect of pet related services.
